## PROFESSIONAL SUMMARY

I am a systems engineering student nearing graduation from Universidad Fidélitas. I have solid experience in software development, database management, and the application of agile methodologies such as Scrum. I am known for being proactive, adaptable, and open-minded when it comes to solving problems and contributing effectively to teamwork. My goal is to apply my technical and analytical skills to innovate and add value to technological projects.

## TECHNICAL SKILLS

- Programming languages: Java, PHP, JavaScript, Python, ASP.NET Core
- Databases: PL/SQL, Oracle, MySQL, PostgreSQL
- Frameworks and web design: HTML, CSS, Bootstrap, MVC, Adobe XD
- Tools: Office 365, GitHub, Canva, Supabase, Firebase, AI tools
- Methodologies: Scrum

## WORK EXPERIENCE

**Technical Support**                                        **04/2025 - 07/2025**

**National Children's Hospital**
- Preventive and corrective maintenance of IT equipment
- Installation and configuration of hardware, software, and digital signatures
- Process documentation and improvement of response times

## EDUCATION

**Fidelitas University**                                        **2021 - 2024**

B.Sc. in Computer Systems Engineering, 2021–2024
(Expected graduation – degree pending)

## CERTIFICATIONS AND LICENSES

Scrum Fundamentals Certified
- Cisco Networking Academy:
- CCNA: Introduction to Networks (2021)
- Introduction to the Internet of Things – IoT (2022)
- CCNA: Switching, Routing and Wireless Essentials (2022)
-Valid B1 Driver's License

## SOFT SKILLS

Proactivity, Teamwork, Problem-solving, Adaptability, Open-mindedness

## LANGUAGE

English (Intermediate - B1)                                        Spanish (Native - C2)
