San José, Costa Rica • 7207-6338 • sbriones284@gmail.com • [LinkedIn](#) • [Website](#) • [Github](#)

Summary

Computer Systems Engineer with hands-on experience in ASP.NET Core, C#, MySQL, and technical support. Experienced in developing internal business applications, troubleshooting hardware and software issues, and collaborating in Scrum environments. Passionate about building scalable software solutions and continuously expanding my expertise in backend development and cloud technologies.

Experience

DINADECO – Software Developer | San Jose, Costa Rica | Aug 2025 – Feb 2026

- Designed and developed an internal Human Resources Management System using **ASP.NET Core and MySQL**, digitalizing employee records, leave and vacation requests, and payroll-related processes.
- Developed HR modules for managing employee leave requests, vacation approvals, and administrative workflows.
- Designed and integrated a MySQL relational database with automated payroll deduction and salary incentive calculations, improving administrative efficiency.

National Children's Hospital – Technical Support | San Jose, Costa Rica | Apr 2025 – Jul 2025

- Provided first-line technical support for hospital staff, performing preventive and corrective maintenance on IT equipment.
- Installed and configured hardware, software, printers, digital signatures, and user workstations.
- Documented technical processes and improved response times.

Education

Fidelitas University

Bachelor of Science in Computer Systems Engineering | 2021–2026 | GPA: 92.03

Licenses & Certifications

Scrum Fundamentals Certified, Cisco CCNA: Introduction to Networks, Introduction to IoT, CCNA: Switching, Routing and Wireless Essentials, Valid B1 Driver's License

Skills & Interests

Programming Languages: C#, Java, PHP, JavaScript, Python

Frameworks & Technologies: ASP.NET Core, ASP.NET MVC, Entity Framework, HTML5, CSS3, Bootstrap

Backend Development: REST APIs, GraphQL, Authentication & Authorization, ASP.NET Identity

Databases: MySQL, SQL Server, PostgreSQL, Oracle PL/SQL Cloud & Backend Services Azure App Service, Firebase, Supabase
